

Whistleblower System

KATEK operates an IT-based whistleblower reporting system enabling every KATEK employee and also third parties, such as customers, suppliers and business partners, to submit information about violations of laws and guidelines worldwide and around the clock – securely, confidentially and, if desired, anonymously.

To ensure that the whistleblower system cannot be traced, please copy the link

www.report-securely.eu/katek

in full into the address line of your browser.

A report can also be submitted

- by email using the address compliance@katek-group.com,
- by telephone by calling +4989232398879 or
- by post to KATEK SE, Compliance, Promenadeplatz 12, 80333 München.

Information received will be reviewed and processed by the compliance contact person at KATEK SE and will of course be treated confidentially.

We would like to point out that suspecting a person of a violation can lead to serious consequences for that person and we encourage everyone to use the whistleblower system responsibly.
